Kajetan Jędrych
SOFTWARE TEST ENGINEER

As a QA Engineer passionate about technology, I'm actively enhancing my development skills. Proficient in AWS, Java, JS, Jenkins, SQL, and Python, I'm dedicated to delivering top-notch software testing solutions. Beyond testing, I have a keen interest in full-stack technology and strive to create my own web projects. Outside work, I enjoy sports and an active lifestyle.

WORK EXPERIENCE

QA Engineer

Acoustic   2024 - Currentt

I manage the entire testing process for a marketing application, encompassing both web and API testing. My responsibilities include preparing test strategies, creating and executing plans, and automating using Java (Selenium), JavaScript (Playwright), Cucumber, and AWS technologies. I have also built complete test projects in Playwright from scratch for new applications, ensuring robust and scalable frameworks. Additionally, I present test results to stakeholders and oversee the entire testing lifecycle to ensure high-quality software delivery.

Software Test Engineer (Outsourcing to Intel Poland)

Solwit S.A Gdańsk   2021 - 2024

I've successfully taken charge of a significant department specializing in performance testing for OpenVINO applications, automating processes for increased efficiency. Proficient in test execution oversight, results analysis, and detailed reporting, I utilize Python to develop tools that elevate validation procedures. My role extends to identifying and resolving CI errors within Docker and Jenkins. Additionally, as the longest-serving QA in our team, I mentor two colleagues, helping plan their work and guide their professional growth.

Junior Specialist for Testing (Outsourcing to Intel Poland)

ManpowerGroup Poland Gdańsk   2020 - 2021

I established robust Windows test environments, defined precise test scopes, and executed thorough testing procedures. Proficient in analyzing test outcomes and producing detailed bug reports, I collaborated with development teams for efficient issue resolution, maintaining high software quality standards.

COURSES

ISTQB Certified Tester Foundation Level

December 2022

[PCAP-31-02] PCAP – Certified Associate in Python Programming

September 2022
